Good morning Troy,

I believe someone in our water group may be the best person to answer. Kim Ngo has been coordinating our public drinking water efforts.

Thanks so much.

Taim.

**Subject:** [SPAM] Latest on Boil Water Notices & Water Quality

Hello EPA Friends,

I am working as the water quality subject matter expert for the Department of Health and Human Services during the Harvey Response. While I am mostly focused on private wells, I have gotten an urgent request for info on the status of PWS from our Secretary. Could someone please provide me the latest list of systems on BWN or not operating?

Thank you!
